Hey everyone. So I'm pretty much done with looking over your work and wanted to give a few points I have noticed.

1. Please press the turn in button only when you have finished with assignment. I see too many blank documents on my end that people say they have finished.

2. You should be able to type directly into the documents. Make sure you are in Google Docs and you hit the edit button.

3. You can always go back to redo a submission even after I grade it. I can change the grade very easily on my end.

4. Please complete all the assignments. There are very few that I cannot check the completion status of. There is a reason why I am giving them to you in a specific order.

2) Use these three problems

What is $\frac{5}{8}$ closest to and why?

Which is greater - $\frac{4}{10}$ or $\frac{2}{3}$?

What is greater? $\frac{7}{8}$ or $\frac{5}{11}$?

Feel free to use any strategy that you've learned this week or in the past or example to show your students
